I'm Dkhoa, a Software Engineering student and front-end developer who turns design ideas into pixel-perfect and responsive websites and applications that wow users.

Work Experience & Projects

Developer & CI Monitor | F5-Teams

2024 - 2025, Remote

- Monitored and maintained the Node.js CI workflow for the project-backend-api under the F5-Teams organization on GitHub.
- Spearheaded seamless development and deployment processes while maintaining a strict and proper Git/GitHub workflow.
- Constructed a stable environment to handle client requests through well-organized routes for increased code readability.

Project Member | PentaPixel (Startup)

2025, Ho Chi Minh, Vietnam

- Participated in the core development and settlement documentation for the PentaPixel startup project at FPT University.
- Collaborated effectively within a team environment to bridge the gap between technical requirements and project execution.

Front-end Developer | Freelance & Personal Projects

2024 - Present, Remote

- Developed dynamic web and mobile applications while keeping in mind all the best UI/UX practices from high-fidelity Figma designs.
- Used Next.js and React.js to reduce time-to-market, support SEO, and leverage server-side rendering for faster page loading times.
- Crafted mobile-responsive applications using React Native and explored interactive 3D web graphics using Three.js.

Education and Certifications

- B.Sc. Software Engineering (KTPM), FPT University | 2024 - Present

Technologies and Languages

- JavaScript, MERN, React.js, React Native, Node.js, Next.js, SQL, MongoDB, REST APIs, TypeScript, Redux.js, MongoDB, Mongoose ODM, React Hooks, Express.js, Git, GitHub, HTML, CSS, Material UI, Tailwind CSS.
